6TH EDITION

Dear parents/guardians,

We have successfully come to the end of the second term of our academic year. We would like to take this opportunity to thank each and every one of you for supporting us in your different capacities, we do not take it for granted. To the students, congratulations on your academic and extra-curricular successes that you have achieved throughout the course of this term. You put your best foot forward and the results are proof of all your hardwork.

The difference between the impossible and the possible lies in a person's determination.

Tommy Lasorda

k2 students enacting peace at last

Presentations by K2 and Reception classes.

A round of applause to the teachers and students for putting on such a spirited performance. We were taken to the world of bears with a book titled Peace At Last that the K2 students put so much heart in. Their mastery of the scenes and articulation of the words from the book left us all in awe. The folklore world of Little red riding hood was brought to life by the reception class. From very intense characters to beautiful music and a bit of French thrown in. It was a joy to watch them on stage.

To the parents that graced us with their presence, we are humbled that you could accept our invite. To those that were unable to make it, we hope to see you the next time and invite is sent.

SPORTS EVENTS WITH OTHER SCHOOLS

It has been a whole term of pushing the students to reach their limits both on the field and academically.

We were able to have competitions with other schools which took the children out of their comfort zones and boosted their sportsmanship. We had football matches with Acacia international School and Swan Academy where we emerged victors.

We also had a chess match with Harmony International school where the children proved their chess prowess. Here are some pictorial highlights.

Bible Trivia

MARCH BABIES!!!

March babies are known to be bold, courageous and risk takers. It is no wonder that they seem to have boundless amounts of energy. We celebrate you and wish you a long healthy and happy life ahead.

KEEPING THE CHILDREN ENGAGED DURING THE HOLIDAY

It is a great joy to come to the end of the term, but with this comes the question, how will I keep the holiday makers engaged? It is challenging but this is also a time to make good on the thought of spending as much quality time with the children as possible. Here are some tips that you may find beneficial:

Allow the children to participate in household chores such as washing utensils, setting and clearing the table and taking an active step towards organizing their living spaces by themselves. These chores not only keep them busy but help them to be responsible. Go shopping with them at the neighborhood market or supermarket, especially over the weekend. This will instill financial discipline in them and encourage them to make good financial decisions.

Engage the children in voluntary activities such as community outreaches where you help those in need

Play games with them like fixing puzzles, hide and seek, tag. Your presence lets them know that you love them and that they are worth having around.

Visit relatives if possible, this is one of the ways that they get to learn more about where they come from given that these days families tend to keep close knit the nuclear unit.

Organize reading sessions for the children either in the morning or afternoon. It could be school notes, a magazine, newspaper or a picture book. This instills a very healthy culture of reading that is paramount in expressing one's self.

Term three will resume on 23rd April 2025. We look forward to seeing the happy faces of all the Inyana students. Have a restful holiday.

Thank you for your continued support
Inyana Team
